Owl Fact
Male owls have white throats and female owls have brown throats.

Week of November 2, 2019

Fall Night by: Mason B.

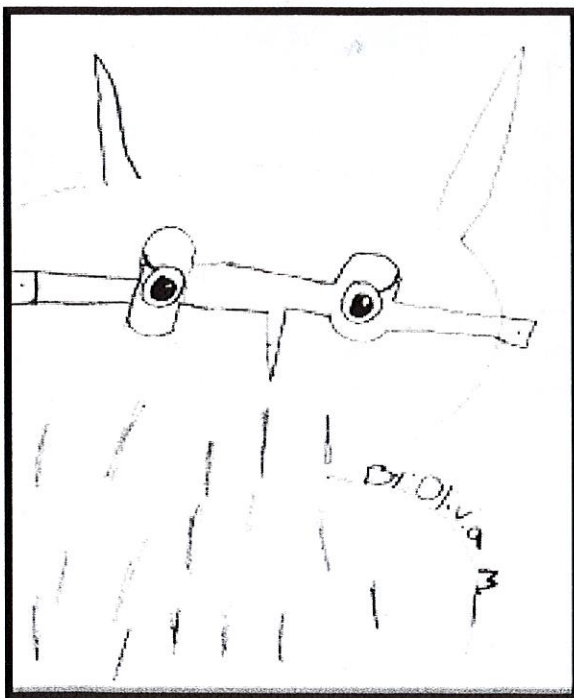

It's fall night, it's time for a fright
Hear the owls screeching, here the devils laughing with all their might
Just a reminder it's Halloween night
All of the Pilgrims are coming down so you'd better get some food right now
In the night the monsters go away when it turns to day
Then all the kids go to play.
And when the night falls and there are no more balls
When it turns to night it's time for a fright.

PICTURE OF THE WEEK

Rainbow in a Glass Experiment

Materials:

Water, a mug, 5 separate cups, a tablespoon, clear glass, a dropper and skittles

Instructions:

1. Separate the skittles into 5 different cups (2 red, 4 orange, 6 yellow, 8 green, 10 purple)
2. Heat a mug of water in the microwave for 90 seconds.
3. Measure and pour 2 tbsp of the hot water on top on the Skittles
4. Stir each cup carefully so no water spills out. (Cups need to be cool for the next part of the experiment... stir them every 10 min or until the Skittles are dissolved or and the water is room temperature)
5. Use the dropper to add the colored water from 5 cups to the clear glass. (start with purple, green, yellow, orange, red. Go SLOWLY you do not want the colors to mix)
6. Congratulations... you did it! You don't even have to go outside to see a rainbow!

Getting to Know... Ms. Lineberry

Q: What is your favorite thing about being a librarian?

A: Reading all the fun books

Q: If you could go anywhere in the universe (not just Earth) where would you go?

A: Neptune, because it sounds fun and no one has been there Before.

Q: What is the craziest thing you have ever seen in all of your years of being a librarian?

A: When someone licked their book.
